GAMO PROSHOT ID SYSTEM

THE RIGHT AIR GUN > THE RIGHT AMMO > THE PERFECT COMBINATION

At Gamo, we manufacture many different air guns to fit the needs of versatile shooters everywhere. With such a variety of choices, we've created the GAMO PROSHOT ID SYSTEM to help you better align your shooting needs with the performance attributes of each model. From Hunting to Pest Control & Recreation to Target & Competition, all Gamo air gun and ammunition packages are clearly labeled and color coordinated to designate their recommended primary usage—so you can easily pair the right ammo with the right air gun. Every time.

GAMO PRODUCT RECOMMENDED USAGE

PEST CONTROL + RECREATION

Provides accuracy and high velocity—ideal for nuisance animals such as mice, rats, birds and snakes. Also perfect for recreational shooting and other everyday uses.

HUNTING

Delivers accuracy with higher energy downrange for ultimate impact and penetration—ideal for small game such as rabbits, squirrels, raccoons, and crows.

TARGET + COMPETITION

Offers the ultimate in accuracy and consistent performance—ideal for both training and competitive shooting.

GAMO SOUND SUPPRESSION TECHNOLOGY AND SOUND LEVELS

Gamo's patented Whisper® technology leads the air rifle industry in sound suppression. This technology is categorized into three tiers—Whisper, Whisper Maxxim and Whisper Fusion—for quiet, quieter, and quietest performance. However, "noise reduction" does not mean "silence," as sound levels will vary depending upon pellet choice. A lighter, faster and smaller caliber pellet, for instance, will produce a louder sound than a heavier, slower and higher caliber pellet. To further assist with your purchasing decision, please refer to the chart above.

Whisper® is a trademark of and is used under license by J. D. Jones. Fusion® is a Registered Trademark of Federal Cartridge Company. Used under license.

Whisper®

The Whisper is the noise-suppressing technology already known and trusted by thousands of shooters around the world. It is one of the first noise-dampening technologies created in the air gun industry. The Whisper is an integrated noise and muzzle blast reducer molded onto the barrel, forming a single part.

Whisper® MAXXIM

The Whisper Maxxim features two noise dampening chambers, offering a quieter performance as well as an improved muzzle break design. The new muzzle break helps reduce the recoil and is also integrated with the bull barrel. This new technology results in a lightweight, fluted, polymer/steel rifled barrel, integrating one of the latest sound-suppression technologies from Gamo. The Whisper Maxxim takes less space than the Whisper, keeping a better weight balance while making the air rifle quieter.

Whisper® FUSION

The Whisper® Fusion® technology incorporates a double integrated sound moderator making it the quietest Gamo air rifle. The pellet travels through two different chambers, compressing and preventing the noise expansion.

The revolutionary **C.A.T. (Custom Action Trigger)** enables Gamo air rifle owners to independently adjust the 1st and 2nd stages of their trigger to tailor the trigger pull and crispness to their personal preference. Simply loosen the 1st stage adjustment screw and the trigger travel increases. If a shorter travel length is desired just tighten the same screw to decrease the 1st Stage travel length. The 2nd Stage Adjustment is made just as easily—unscrew the adjustment setting to increase the 2nd Stage travel length or decrease it by screwing in the same adjustment point.

Based off the groundbreaking IGT platform, the **IGT MACH 1™** replaces the standard spring powerplant with an Inert Gas Cylinder, but the IGT MACH 1's monster 33 millimeter cylinder delivers more velocity and terminal penetration. The pneumatic cylinder rockets pellets up to 1650 Feet Per Second (fps) in .177 caliber (with alloy pellets), and promotes smooth and consistent cocking efforts with constant power delivered to any pellet you shoot.

If you want: **More Precision, Less Vibration and True Knock Down Power.** Make sure your next Gamo has the IGT MACH 1 inside.

Improve your knockdown power and accuracy! Enhance your hunting experience! The **IGT™ (Inert Gas Technology™)** from Gamo enhances your hunting or target shooting experience. This technology consists of a pneumatic cylinder that replaces the spring, enabling the shooter to get more terminal velocity (up to 1,300 fps with .177 Cal. alloy pellets and up to 1,000 fps with .22 Cal. alloy pellets), less vibration, more consistent power, and a constant and smooth cocking effort.

Gamo, pioneering the latest air gun technology, delivers the groundbreaking **Triple R (Recoil Reducing Rail)**. The RRR was developed to subdue the taxing stresses placed on your scope from the intense recoil of air guns and high-powered rifles. The Recoil Reducing Rail uses patent pending two-piece aluminum construction separated by dual polymer struts to absorb the shockwaves generated by the recoil. Once the scope is mounted to the Recoil Reducing Rail, the recoil stresses to its internal components are reduced by almost 100%.

Hunters demand: **Scope Reliability, Reduced Vibration and Dead On Accuracy.** The Triple R (Recoil Reducing Rail)—Preserve Your Scope's Lifetime for the Next Time. Only from Gamo.

⚠ WARNING

Do not brandish or display this airgun in public. It may confuse people and may be a crime. Police and others may think this airgun is a firearm. Do not change the coloration and markings to make it look more like a firearm. That is dangerous and may be a crime.

⚠ WARNING

This is not a toy. Adult supervision required. Misuse or careless use may cause serious injury or death. May be dangerous up to 250 yards or 229 meters. This airgun is recommended for use by those 16 years of age or older. Read all instructions before using. The purchaser and user should conform to all laws governing the use and ownership of this airgun.

10X QUICK-SHOT RAPID RELOAD TECHNOLOGY

Our patent-pending technology enables you to shoot up to 10 pellets without reloading. Simply break the barrel and fire for lightning-quick follow-up shots. This technology is available only in select Gamo air rifles.

AVAILABLE ON
SWARM WHISPER

This patent-pending 10X GEN 2 Technology includes our revolutionary horizontal integration, making it lighter, more compact and low profile. The second generation 10X offers a smoother operation and improved accuracy.

PELLETS

As the world's largest manufacturer of air gun pellets, we demand consistency. And so should you.
That's why we strive to produce only the most accurate, highest quality air gun ammunition possible.

High precision pellet with a pointed head and a straight, smooth shaft.
The G-Hammer heavyweight pellets pack a serious punch downrange.

Expansive, destructive and extremely precise.
Exclusively designed to fit your 10x GEN1, GEN2 & GEN3i Gamo Rifle.

RED FIRE™

The **Red Fire®** pellet is Gamo's latest state-of-the-art hunting pellet. This advanced pellet is designed with a diamond-shaped polymer tip that provides a true ballistic trajectory.

The Red Fire® pellet is engineered for balanced expansion ensuring intense penetration. The force of impact drives the red polymer tip back into the cylindrical jacket material, forcing it to expand outward increasing the diameter of the projectile as it passes through the intended target (mushrooming effect on impact).

AIRGUN OIL

ITEM #621242754

Gamo air rifles and air pistols will deliver maximum shooting potential and remain trouble-free for an unusually long period of time if properly lubricated and cleaned. Always make sure your airgun is unloaded before cleaning or oiling. Never use oil for the inside of the barrel.

AIR RIFLE MAINTENANCE CENTER

ITEM #621245854

Easy fold out rifle stand is ideal for:

- Mounting or adjusting your rifle scope.
- Cleaning, repairing or maintaining your air rifle while in the field, at the range, or on hunting trips.
- Protecting your table or other surfaces from scratches or fluid spills while performing maintenance on your air rifle.
- Keeping track of rifle parts in the storage compartments while performing maintenance.
- Helps you store your tools and cleaning supplies.

CLEANING ROD KIT

ITEM #621240954CP

This kit is intended for air rifles and air pistols. Includes 3-pc rod, jag, brush and handle. Compatible with Calibers .177 and .22.

CLEANING ROD KIT

ITEM #621246054CP

The solution to keeping the external and internal parts of your air gun in good condition.

Kit includes: Cleaning rod and barrel brush for .177, .22, .25 calibers. Cotton pellets, cotton patches, cleaning oil and cleaning brush.

CLEANING PATCHES/PELLETS

ITEM #621241254CP CLEANING COTTON PELLETS .177 [100]

ITEM #621241654CP CLEANING COTTON PELLETS .22 [100]

Cleaning Pellets

Shooting these pellets is the easiest and fastest way to remove dirt and lead residue from your air gun barrel. Can be used in the field or in regular full cleaning.
